Clinical Site Services Adds to Team

Severna Park, MD - Clinical Site Services (CSS), a Maryland company focused on managing the trial recruitment process to increase enrollment for sponsor companies, CROs and investigative sites, announced today that it has hired Greg Jones as the Vice President of Site Management Services. Mr. Jones' role at CSS will include the oversight and growth of CSS's site-specific offerings.

"Bringing Greg on board will prove instrumental to taking our company to the next level," said Chris Trizna, President of CSS. "Greg's expertise in the healthcare industry, especially his knowledge of investigative sites, will provide enhanced solutions for our current and future clients."

Greg joins CSS with 20 years of experience in the direct marketing and business process outsourcing space for the healthcare and technology industries. Mr. Jones was one of the founding partners of an emerging BPO firm targeting healthcare practices nationwide, and has managed multi-million dollar service contracts for top Fortune 500 firms. Greg received his Bachelor of Science from Mary Washington University. He is a member of the American College of Healthcare Executives and the Association of Clinical Research Professionals.

Clinical Site Services (CSS) is a site performance company that provides patient recruitment solutions to increase the enrollment potential for investigative sites. Through a proprietary, integrated process, CSS strives to reduce the costs and timelines associated with recruitment subjects for clinical studies.
